## THE PROJECT

GO! is an Erasmus+ small-scale partnership in Vocational Education and Training.

Project Number:  
2021-2-CY01-KA210-VET-000050795

## AIM

GO! aims to deliver a web-based one-stop shop that will consist of different practices and tools regarding career advising with an emphasis on disadvantaged groups. The one-stop shop will be a useful means for career advisers, members of disadvantaged groups, and policy makers who seek to use good practices and tools, and develop new policies.

## NEWS

We are excited to bring you the highlights from our first face-to-face transnational meeting and outline the crucial activities into which we will delve the coming months.

the European Union

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

**Project Kick-off in Nicosia:** The journey of the GO! project officially began in Nicosia, Cyprus, at the offices of the M.M.C. Management Center, the project coordinator. We were delighted to host representatives from ASNOR, our partner organization, marking a milestone in collaborative effort and international partnership.

**Day One:** The meeting started with a warm welcome from the project coordinator. The session proceeded with an introduction of both partners, M.M.C. and ASNOR, focusing on their experiences and roles in the project. The day was primarily dedicated to presenting the project's framework, emphasizing three critical areas, namely:

1. Project Management and Coordination
2. Quality Assurance
3. Dissemination of Activities and Results

The discussions were insightful, laying a solid foundation for the project's strategies and outcomes. The day concluded with a comprehensive review and feedback session, setting a positive tone for the future.

**Day Two:** The subsequent day delved deeper into the second and third activities of the project:

- The second activity focused on identifying EU-funded projects, good practices, and tools for career guidance to disadvantaged groups.
- The third activity centered around the development of an online platform designed as a web-based one-stop shop.

As we move forward, we are inspired by the commitment and insights shared during this first meeting. The groundwork has been laid and we are eager to build on this momentum. Stay tuned for more updates as we continue to develop and expand our GO! project, striving to make a meaningful impact.

”

Stay connected!

We invite all our colleagues, beneficiaries, and other stakeholders to stay engaged as we embark on this exciting journey together.

Your contributions and insights are invaluable to the success of our project.
